2 Minute Takeaway

Creating imagery of food isn't as simple as most people imagine. Food created for plating by chefs is intrinsically VERY DIFFERENT from food created to be photographed. To make food look good in a two dimensional image, a food stylist needs to prepare the dish in a way that it's texture and colours are in focus - and not necessarily it's taste!

Thoda Strong is a boutique food photography studio in Gurgaon, NCR and is perhaps the only studio in North India to offer all the services required for food photography under one roof.

Stocked with the very best in photography equipment, we have a large inventory of props and accessories to present your dish in the very best way possible.

We will work with you in order to make sure that the images follow YOUR brand look-and-feel, so that the way you represent the food is unique to you!

About Us

THODA STRONG is a boutique photography, food styling and communication studio based in New Delhi India. With a fully stocked food photography kitchen and setup, we are perhaps the only photography studio in North India fully geared towards creating imagery of food - in all it's glory!

Arjun is a food, hospitality and travel photographer based in New Delhi, India.

With a natural affinity to people, food, nature and travel photography — Arjun loves exploring how an idea can go much beyond just a photograph. With a career in advertising and marketing behind him, Arjun is very comfortable in translating a concept and idea into a tangible visual.

Praerna is a food stylist & photographer based in New Delhi, India.

With a keen eye for colour, texture, composition and style, Praerna started experimenting with food styling when she started taking her blog more seriously.

She enjoys trying various approaches to figure out what makes food look the most appealing to the camera. Making the same-old-dish look brand new and fresh is her favorite challenge and she lives for the satisfaction that it brings her.

State-of-the-art Photography Studio

In the heart of Gurgaon (near HUDA city centre), our large studio is fully equipped for most commercial photography applications. Fully air-conditioned with the latest equipment and props, our studio features a running food-kitchen for all kinds of food assembly and styling.

Clients

Over the years, we've had the opportunity and the privilege to work with some of the top brands in the F&B industry – from hotels, to restaurants and F&B manufacturers – as well as some of the best brand teams. It's been an absolute pleasure creating the portfolio that we have with, and for, them. Here's a quick snapshot of some of our regular clients.
