ABOUT US

ADWORLD is a complete signage solutions provider offering various sign solutions. **ADWORLD** is started and managed by a well experienced Signage Professional with vast experience of 20 years in the field of Signage industry in INDIA.

Our facility is located in HYDERABAD with most advanced machinery and experienced staff. Our Sign manufacturing facility equipped to provide complete signage solutions to all our clients right from Concept, Design, Sign Engineering & consultancy in addition to manufactured product range.

Our policy is to provide 'one stop solution' facility for all the signage needs. We have worked with many international designers, Signage consultants and architects which have given us an excellent knowledge and help in bringing new innovations & ideas in the field of sign engineering.

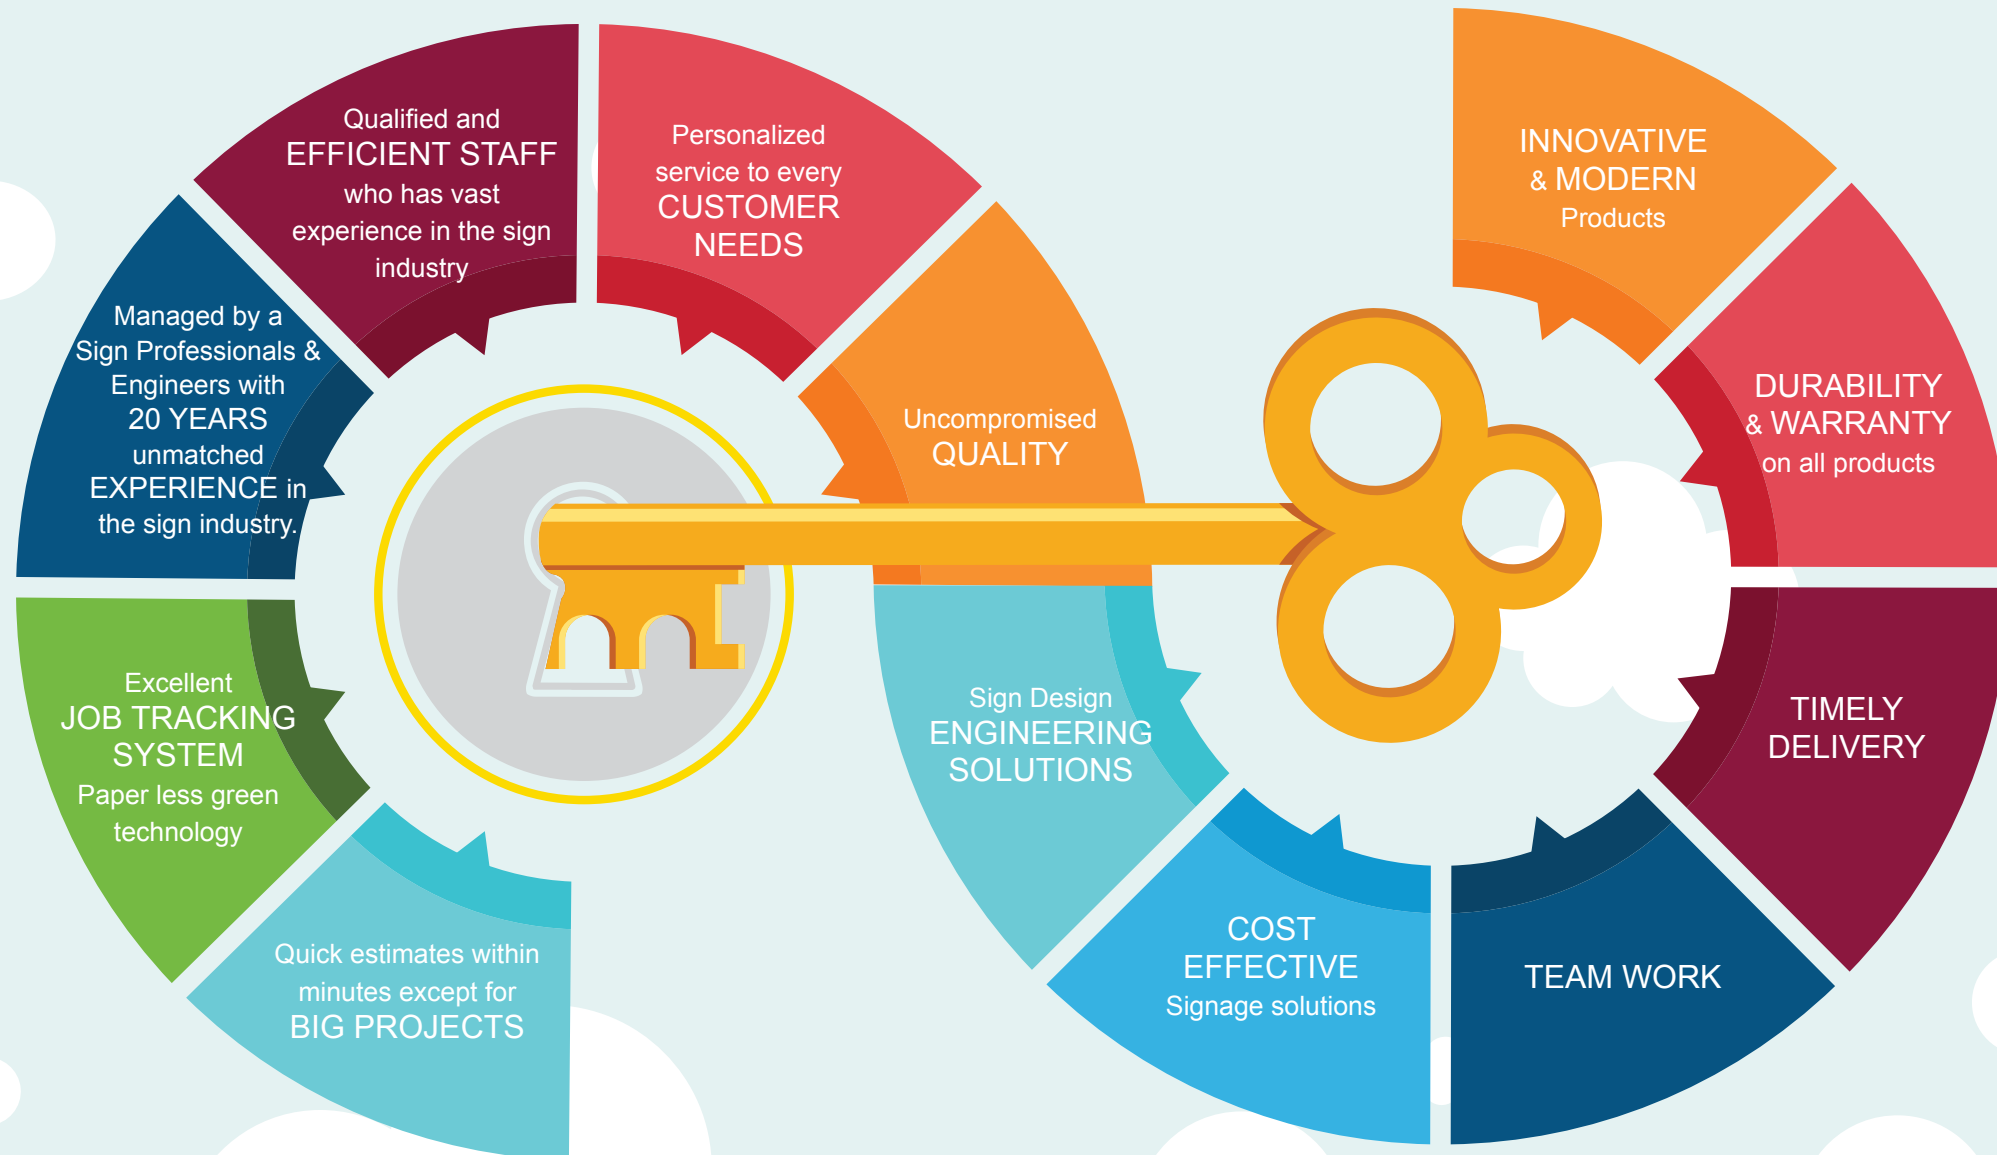

ADWORLD operates on Advanced Business Management Software which will enable us to provide a “WOW” experience to our clients in terms of pricing and delivering signs on time. Our cloud based tracking system literally allows us to keep track of any kind of small to big job.

ADWORLD works in collaboration with designers, architects, and project managers to conceptualize, select, customize and produce the finest sign systems for a variety of signage needs large and small. **ADWORLD** Sign systems are distinctive for their attention to detail and are fabricated with the highest quality materials and craftsmanship. All **ADWORLD** products are made with simple core materials, presented in an honest and elegant manner that are applicable to many interior contexts and functions.

Each product series is selectively chosen by **ADWORLD** for functionality, durability and adaptability. A quality controlled manufacturing, inventory, and distribution process allows these qualities to be offered to a wider audience at an affordable price. Our R&D department is constantly exploring new technologies and innovative signage products to keep upbeat with the Region's fast trend without compromising quality.

CASE STUDY

Installation & Commissioning Challenges

Deloitte.

CHALLENGES:

- ~ Sky Scraper with 25 floors - 2 Towers
- ~ Logo for a visibility of 2 Kms in commercial area.
- ~ Logo 18' x 95' (H xW) on 22nd floor
- ~ Tall high raise building rooftop
- ~ Terrace completely occupied with HVAC system and pipes
- ~ 23 feet high parapet wall
- ~ No permanent support structure for I&C

SOLUTION:

- ~ Customized metal scaffolding structure with adjustable jack system.
- ~ Created stable metal platform suitable for I&C (Gandola)
- ~ Compliance of design, QA, safety standards as per Industry norms but getting Third party inspection certificate
- ~ 18' logo on 22nd floor installed by HILTI anchor bolts & fasteners, chemical adhesive to RCC structure
