DESIGN PORTFOLIO

ABOUT US

Established in 2013, mVerve, a MobiGnosis Technology Company, a boutique Tech Startup, focused on delivering high quality Mobility Solutions from Small and Medium Enterprises to fairly well established firms.

Our experience with Technologies like Hybrid & Native Mobile Apps, Responsive Web Apps, AR and Big Data has helped our Clients create many successful B2B/B2C solutions that have helped them realise and maintain their business objectives.

Pixel perfect Design, economical Hybrid Mobile App Development, and rapid 'Time-To-Market' Mobility Solutions are our key strengths!

YASHODA HOSPITAL

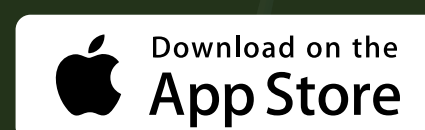

YH SPARK is used by the healthcare business professionals to log in their daily activities to have a better track on their respective verticals and business performance.

It is the first mobile app connecting anglers to a deep network of trusted fishing guides. We help customers create one-of-a-kind fishing experiences by allowing you to have immediate booking access to your own personal guide. Anglers have a one stop shop for easier booking, payments, communication, and real reviews from people like you.

This app connects all enthusiasts with the perfect guide while inspiring the next generation of anglers who are passionate about exploring and conservation.

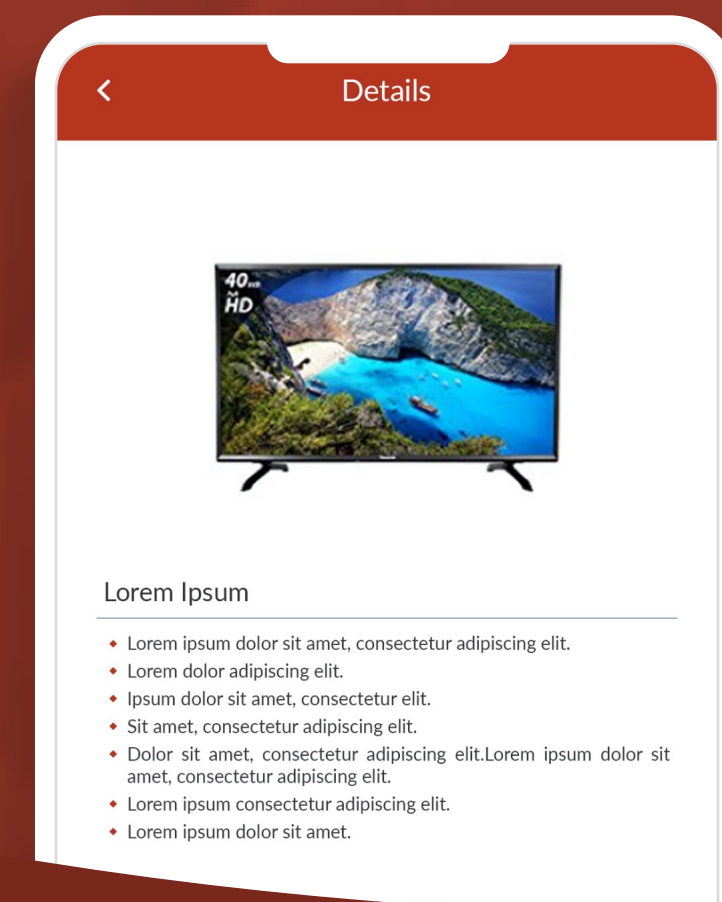

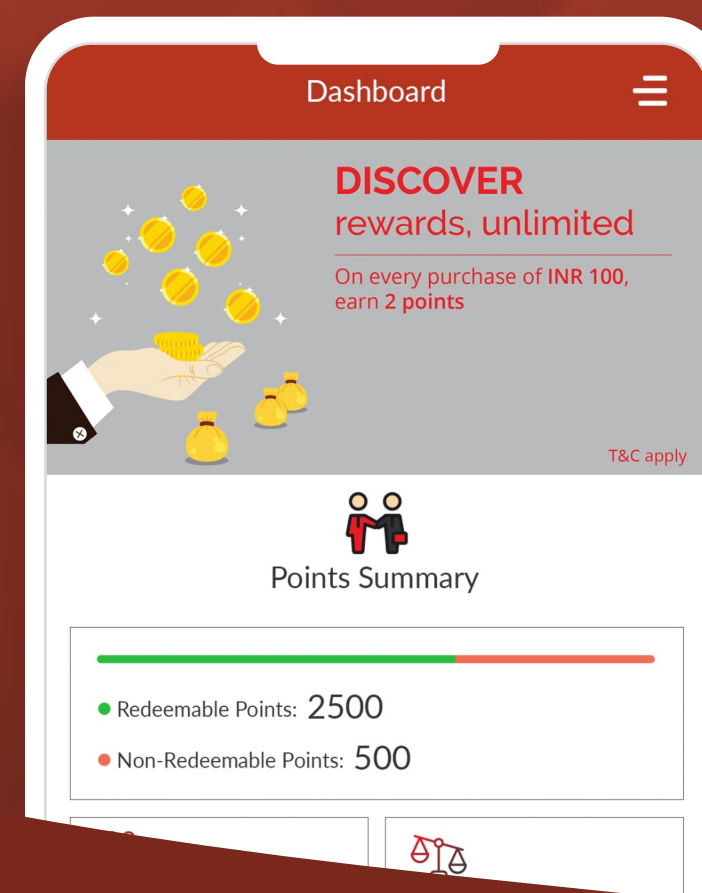

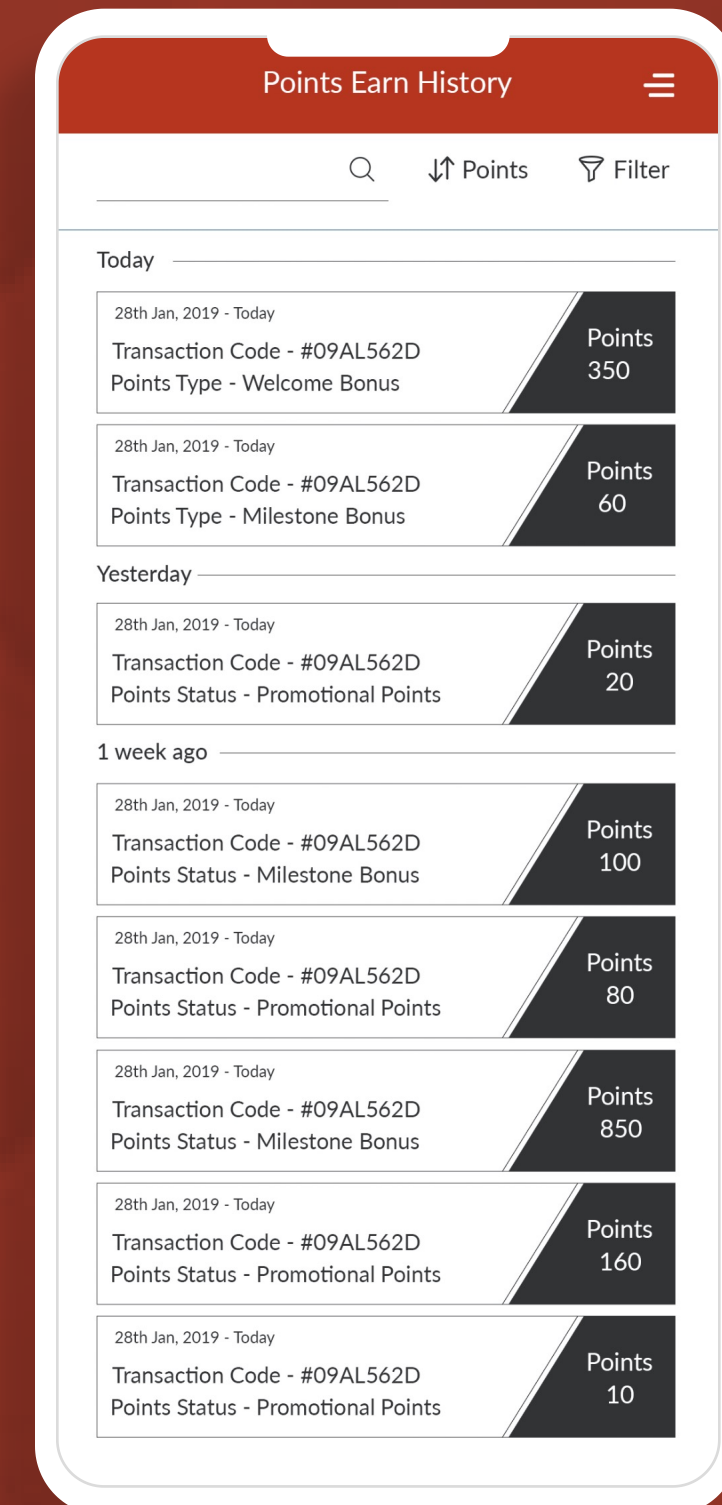

DUROFLEX FOAM

Duroflex has always been appreciative of the partnership and journey with esteemed Dealers such as you. In order to make this journey more meaningful and rewarding, we introduce Duroflex DSS Program, this is the most rewarding program for Dealers like you who sell Duroflex Foams. You can win unlimited rewards and enjoy many benefits for you and your family, by participating in this Program and strengthen this bond between Duroflex and you.

www.mverve.com

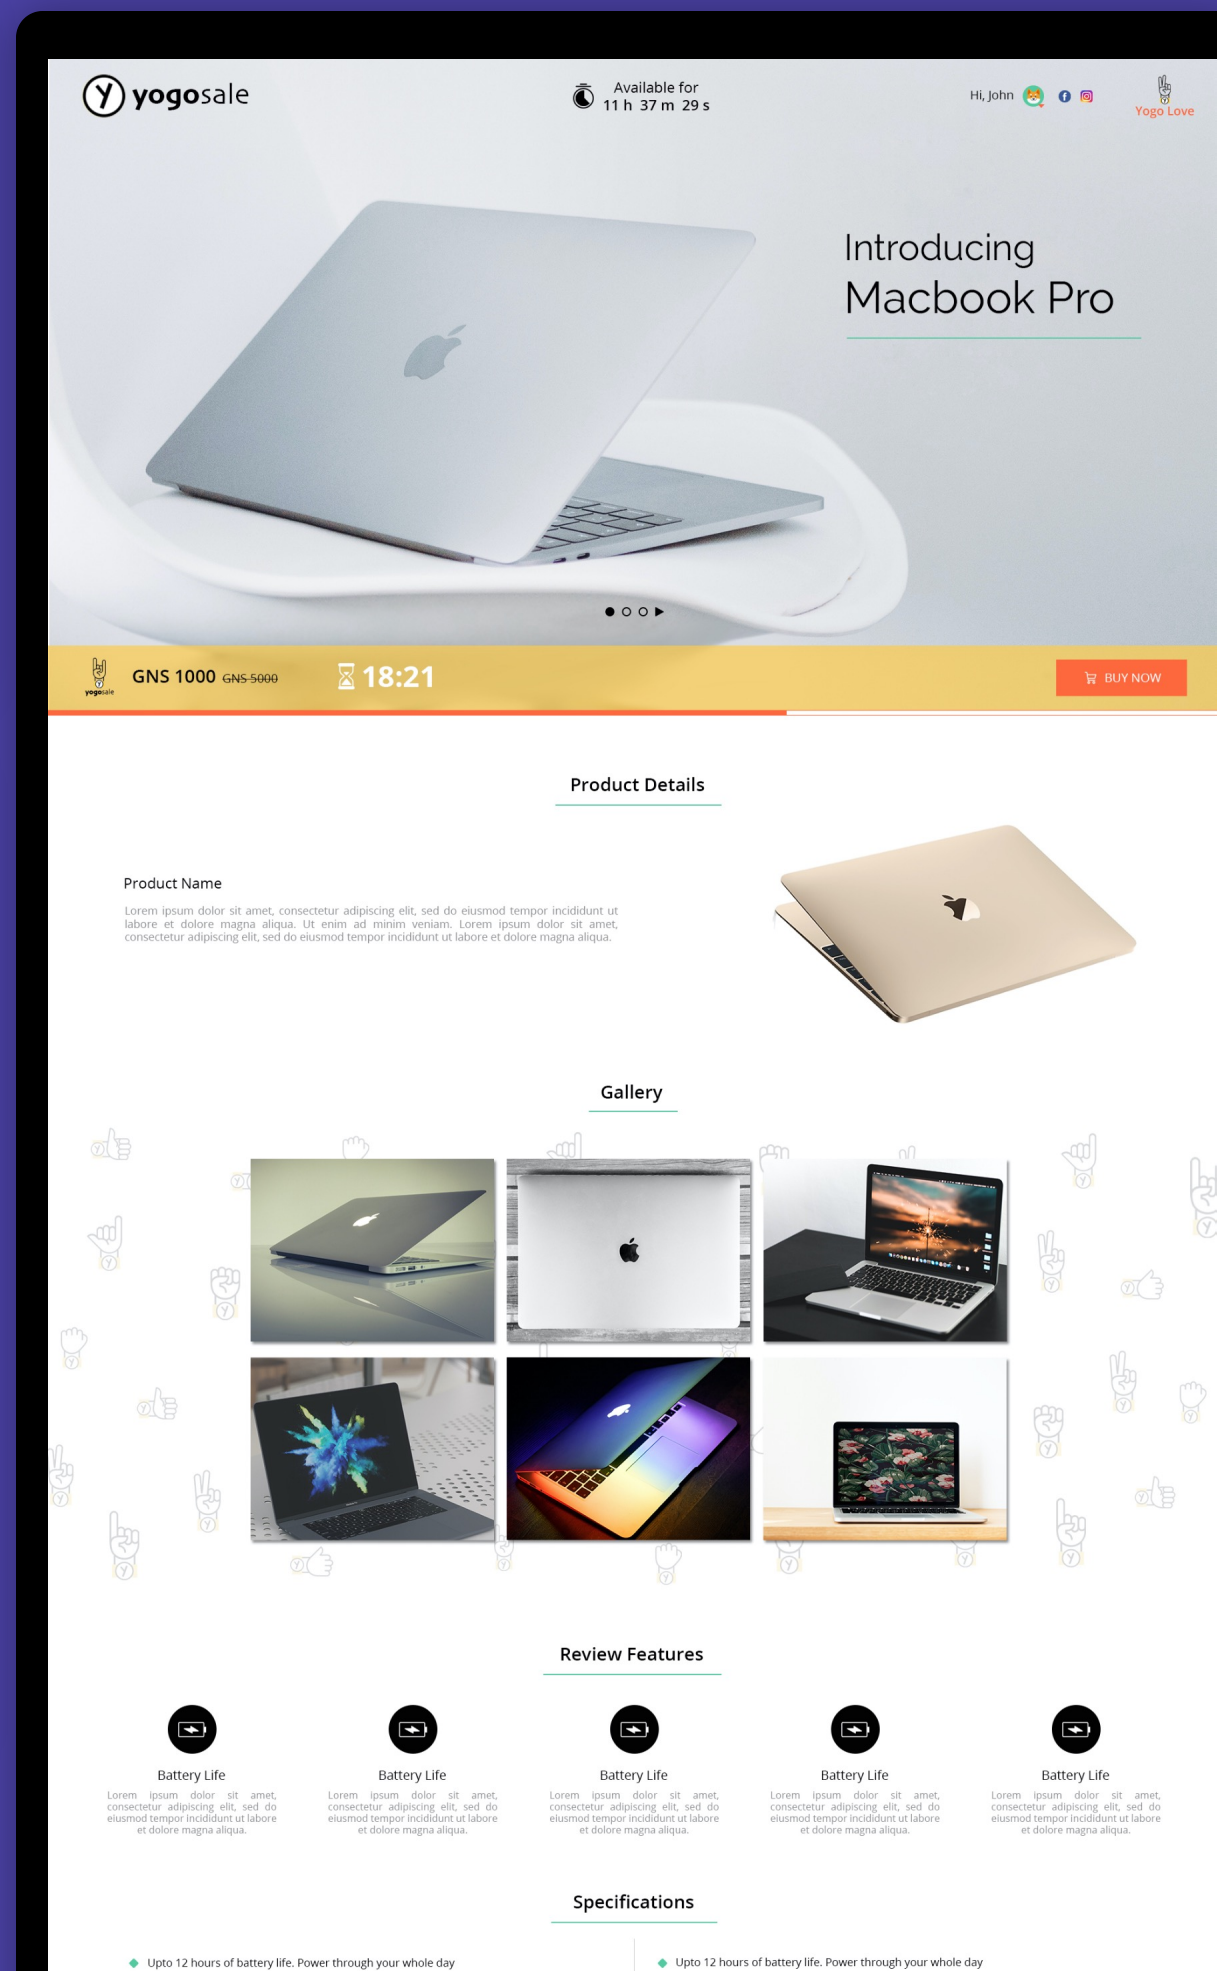

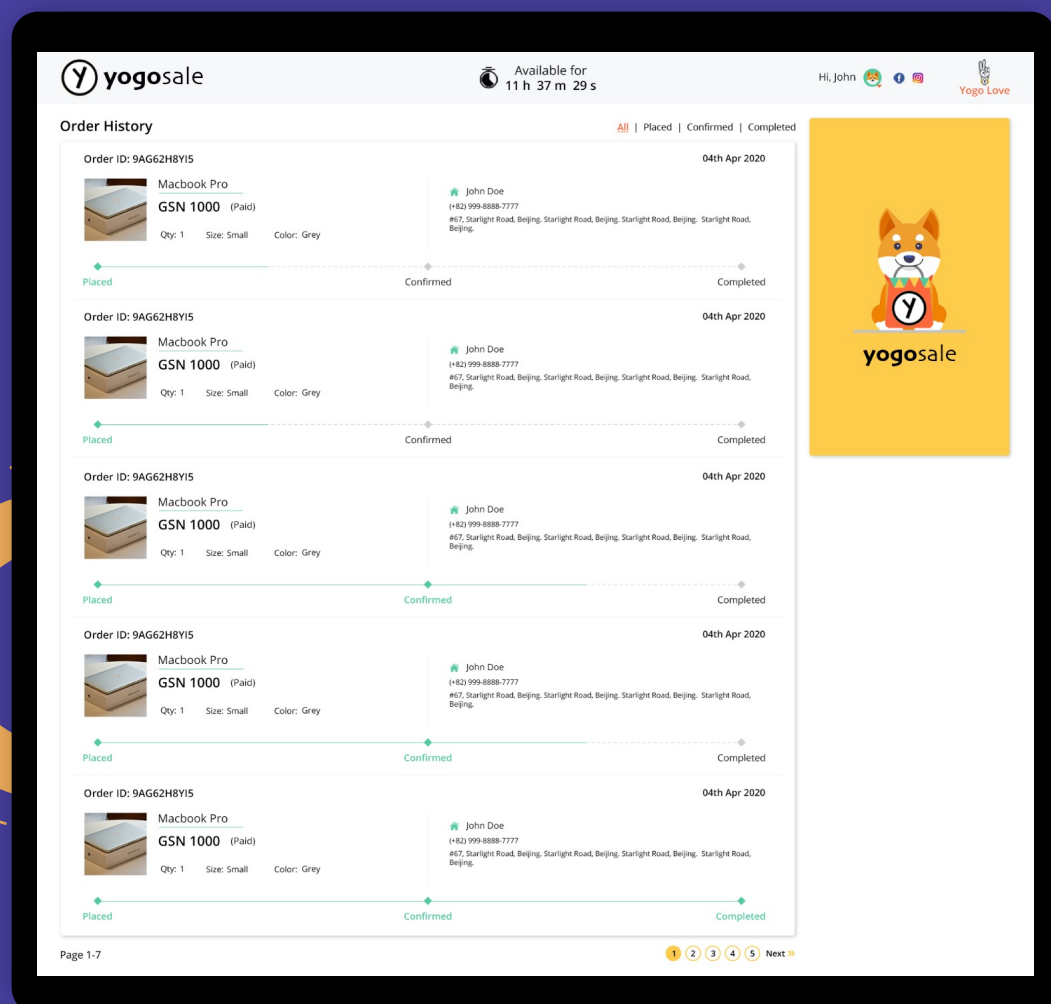

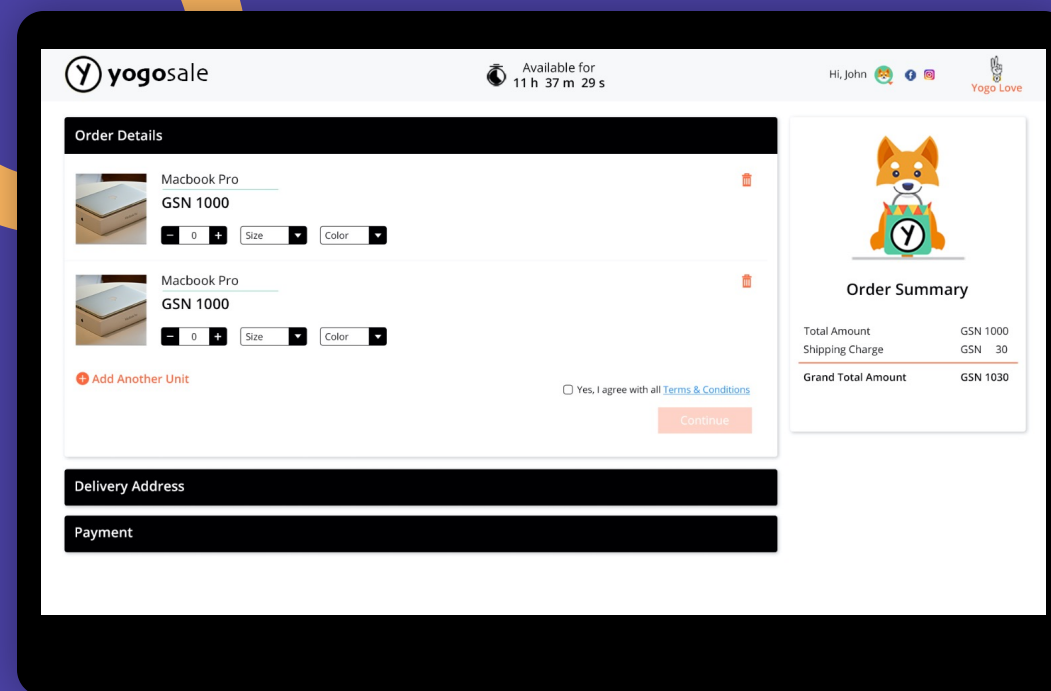

Prospot: A San Diego based Manufacturing firm. Developed a multi-role iOS/Android App to be used by their in-house sales managers and their distributors to manage the store performance KPI's.

YOGOSALE

YOGOSALE is your authentic online African shopping and discount store where our customers come together to find quality fashion at incredible prices. We make the search for the hottest products easier and bring international trends to local doorsteps.

RnR

A B2B Web App to manage the Channel
loyalty partners and their programs.

MY BOSCH REWARDS

This App is a platform for MY BOSCH REWARDS, which is a rewarding loyalty program for Bosch Power Tools dealers and customers. It allows its audiences to manage their My Bosch Reward account, claim points or stars and redeem their points against a large range of products. – Powered by BI Worldwide.

TESTIMONIALS

GABRIEL SUPPIAH

The Dean
Score Campus and Let's Flip

Building tech is not easy. We may be good in the education industry but when it came to building tech, it was a real challenge. Everyone and their friends started selling us what they thought were perfect solutions for us. Everyone sold us their solutions but no one listened to what our needs were.

No one except MOBIGNOSIS. Kriti, Harsha and team are amazing. They were service partners who grew into the roles as partners and have now become lifelong friends. The only group who cared for our work and how the tech represented our work. True professionals.

Honestly, they are not for everyone. We do not like sharing our friends with everyone but if you really are looking to build a solution for your work, there is no better team than MOBIGNOSIS.

BRAD GILL

Founder
Zway & The Bar App

MobiGnosis guided me through the application process and help fill in any gaps in logic themselves without explicitly being told what to do as there are always going to be unforeseen variables and complications.

They not only created an app that had the main features that I wanted, but they also made it fun and usable and interjected a creative element to it that sets them apart from other agencies I've worked with. The communication was also very thorough and while some things may take longer than anticipated, they wilfully tackled the hardest elements without complaint and solved issues that came from pushing the envelope in terms of new technologies and solutions rather than taking a cookie cutter approach. Again, they were very creative along with being technically skilled and I would recommend them to anyone for their development needs.

CLIENTS

THANK YOU.
