OUR SERVICES

Software Development

Our portfolio speaks for itself. We have a bunch of engineers who are not only well qualified but also deeply passionate about what they do. They are problem solvers looking for opportunities to develop solutions that can make lives easier.

Digital Marketing

Forite Group has always followed result-oriented approach and it is from that philosophy our digital marketing wing took shape. From the time we started off, we have made big things happen for small businesses and taken big brands to heights they hadn't achieved before.

Animation

We have always been greeted with pure delight when we deliver our animation videos to our clients. Our team adapts their storytelling techniques to the voice and style of the brand and comes up with endearing stories that garner millions of views on social media.

Gamification

With each gamification job we have done for our clients, we have redefined how gamification can generate better results and bring customers closer to the brand. We integrate tactical tools to measure user interaction and incorporate latest trends. We see this vertical as a means to empower brands with a customer-friendly property that in the long-term will get them solid results.
